Attention: **MARTHA ROXANA C. SESE**  
Director IV- NG Cluster 6

Dear **Asst. Commissioner Garcia**:

In compliance with the Government Accounting Manual Vol. I, we are pleased to submit the Financial Reports of **SCIENCE AND TECHNOLOGY INFORMATION INSTITUTE (STII)** as of and for the period ended 31 December 2021 with *Restated* Financial Statements FY 2020 to wit:

1. Statement of Management Responsibility;
2. Pre-Closing and Post-Trial Balance as of 31 December 2021;
3. *Restated* Pre-Closing and Post-Closing Trial Balance as of 31 December 2020;
4. Detailed and Condensed Statement of Financial Performance for the period ended 31 December 2021;
5. Detailed and Condensed Statement of Financial Position as of 31 December 2021;
6. Statement of Changes in Net Assets / Equity as of 31 December 2021;
7. Statement of Cash Flows for the period ended 31 December 2021;
8. Statement of Comparison of Budget and Actual Amount for the period ended 31 December 2021; and
9. Notes to Financial Statements.

We hope you find the documents in order.

Thank you.

Very truly yours,

**RICHARD P. BURGOS**  
Director

## **STATEMENT OF MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS**

The management of **SCIENCE AND TECHNOLOGY INFORMATION INSTITUTE (STII)** is responsible for all information and representations contained in the accompanying Statement of Financial Position as at **31 December 2021** and the related Statement of Financial Performance, Statement of Cash Flows, Statement of Comparison of Budget and Actual Amounts, Statement of Changes in Net Assets/Equity and the Notes to Financial Statements for the period then ended. The financial statements have been prepared in conformity with the Philippine Public Sector Accounting Standards and generally accepted state accounting principles, and reflect amounts that are based on the best estimates and informed judgment of management with an appropriate consideration to materiality.

In this regard, management maintains a system of accounting and reporting which provides for the necessary internal controls to ensure that transactions are properly authorized and recorded, assets are safeguarded against unauthorized use or disposition and liabilities are recognized.

**Science and Technology Information Institute**  
**Notes to Financial Statements**  
**For the year ended December 31, 2021**

**1. General Information/Agency Profile**

The financial statements of Science and Technology Information Institute (STII) were authorized for issue on **28 February 2022** as shown in the Statement of Management Responsibility for Financial Statements signed by Richard P. Burgos, the Director.

STII is one of the service institutes of the Department of Science and Technology (DOST) and was created as the information and marketing arm of the Department which was established on 30 January 1987 by virtue of Executive Order No. 128.

The institute has the responsibility to implement the following mandates:

- To establish a science and technology databank and library
- To disseminate science and technology information
- To undertake training on science and technology information

These mandates are being processed and implemented by STII's technical divisions: Information Resources and Analysis Division (IRAD) and Communication Resources and Production Division (CRPD) with the support of the Finance and Administrative Division (FAD).

The Agency's registered office is located in STII Building, DOST Complex, General Santos Avenue, Bicutan, Taguig City.

**2. Statement of Compliance and Basis of Preparation of Financial Statements**

Agency's financial statements have been prepared in accordance with the Philippine Public Sector Accounting Standards (PPSAS) issued by the Commission on Audit per COA Resolution No. 2014-003 dated January 24, 2014 which were harmonized with the International Public Sector Accounting Standards (IPSAS) to enhance the accountability and transparency of the financial reports and ensure comparability of financial information.

The adoption of these standards did not result in substantial changes to the agency's accounting policies and had no material effect on the amounts reported for the current or prior financial years.

The financial statements are presented in Philippine Peso, which is the functional and reporting currency of the agency and have been prepared on the basis of historical cost, unless stated otherwise. The Cash Flows Statement is prepared using the Direct Method.

The Financial Statements are prepared on an accrual basis and with the issuance of COA Circular No. 2013-002, all financial transactions are recorded in Regular Agency (RA) Books.

### **3. Summary of Significant Accounting Policies**

#### **3.1 Basis of Accounting**

The financial statements are prepared on an accrual basis in accordance with the Philippine Public Sector Accounting Standards (PPSAS).

#### **3.2 Financial Instruments**

##### ***a. Financial Assets***

##### ***Initial Recognition and Measurement***

Financial assets within the scope of PPSAS 29 - Financial Instruments: Recognition and Measurement are classified as financial assets at fair value through surplus or deficit, held-to-maturity investments, loans and receivables or available-for-sale financial assets, as appropriate. The STII determines the classification of its financial assets at initial recognition.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognized on the trade date, i.e., the date that the STII commits to purchase or sell the asset.

The STII's financial assets include: cash and short-term deposits; trade and other receivables; loans and other receivables; quoted and unquoted financial instruments; and derivative financial instruments.

##### ***Subsequent Measurement***

The subsequent measurement of financial assets depends on their classification.

##### ***Loans and Receivables***

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest method, less impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. Losses arising from impairment are recognized in the surplus or deficit.

##### ***Derecognition***

The STII derecognizes a financial asset or, where applicable, a part of a financial asset or part of similar financial assets when:

- The rights to receive cash flows from the asset have expired or is waived
- The STII has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party; and either: (a) the STII has transferred substantially all the risks and rewards of the asset; or (b) the STII has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

## ***b. Financial Liabilities***

### ***Initial Recognition and Measurement***

Financial liabilities within the scope of PPSAS 29 are classified as financial liabilities at fair value through surplus or deficit or loans and borrowings, as appropriate. The entity determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings, plus directly attributable transaction costs.

The STII's financial liabilities include trade and other payables, bank overdrafts, loans and borrowings, financial guarantee contracts.

### ***Subsequent Measurement***

The measurement of financial liabilities depends on their classification.

#### ***Financial liabilities at fair value through surplus or deficit.***

Financial liabilities at fair value through surplus or deficit include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through surplus or deficit.

Financial liabilities are classified as held for trading if they are acquired for the purpose of selling in the near term.

This category includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by PPSAS 29.

Gains or losses on liabilities held for trading are recognized in surplus or deficit.

### ***Derecognition***

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially

modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in surplus or deficit.

### **3.3 Cash and Cash Equivalents**

Cash and cash equivalents comprise cash on hand and cash in bank, deposits on call and highly liquid investments with an original maturity of three months or less, which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value. For the purpose of the Consolidated Statement of Cash Flows, cash and cash equivalents consist of cash and short-term deposits as defined above, net of outstanding bank overdrafts.

#### ***Petty Cash Fund***

Petty Cash Fund (PCF) refers to the amount granted to duly designated Petty Cash Fund Custodian for payment of authorized petty or miscellaneous expenses which cannot be conveniently paid through checks/LDDAP-ADA. PCF account is maintained under the Imprest Fund System. All replenishments are directly charged to the expense account.

### **3.4 Inventories**

Inventory is measured at cost upon initial recognition. To the extent that inventory was received through non-exchange transactions (for no cost or for a nominal cost), the cost of the inventory is its fair value at the date of acquisition.

Inventories are recognized as an expense when deployed for utilization or consumption in the ordinary course of operations of STII.

#### **Semi-expendable Property**

Tangible items below the capitalization threshold of P15,000 shall be accounted as semi-expendable property. The following policies apply as follows:

- Semi-expendable property which was recognized as PPE shall be reclassified to the affected accounts.
- These tangible items shall be recognized as expenses upon issue to the end-user.

Inventory Custodian Slip (ICS) shall be issued to the end-user of Semi-expendable Property to establish accountability over them. Accountability shall be extinguished upon return of the item to the Property and Supply Division/Unit or in case of loss, upon approval of the relief from property accountability.

### 3.5 Property, Plant and Equipment

#### ***Recognition***

An item is recognized as property, plant, and equipment (PPE) if it meets the characteristics and recognition criteria as a PPE.

The characteristics of PPE are as follows:

- tangible items;
- are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes; and
- are expected to be used during more than one reporting period.

An item of PPE is recognized as an asset if:

- It is probable that future economic benefits or service potential associated with the item will flow to the entity; and
- The cost or fair value of the item can be measured reliably.

All PPEs are stated at cost less accumulated depreciation. Cost includes expenditure that is directly attributable to the acquisition of the items.

#### ***Measurement at Recognition***

An item recognized as property, plant, and equipment is measured at cost.

A PPE acquired through a non-exchange transaction is measured at its fair value as at the date of acquisition.

The cost of the PPE is the cash price equivalent or, for PPE acquired through non-exchange transaction its cost is its fair value as at recognition date.

Cost includes the following:

- Its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates;
- expenditure that is directly attributable to the acquisition of the items; and
- initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, the obligation for which an entity incurs either when the item is acquired, or as a consequence of having used the item during a particular period for purposes other than to produce inventories during that period.

#### ***Measurement After Recognition***

After recognition, all property, plant and equipment are stated at cost less accumulated depreciation and impairment losses.

When significant parts of property, plant and equipment are required to be replaced at intervals, STII recognizes such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major repair/replacement is done, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied.

All other repair and maintenance costs are recognized as expense in surplus or deficit as incurred.

### ***Depreciation***

Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

The depreciation charge for each period is recognized as expense unless it is included in the cost of another asset.

### ***Initial Recognition of Depreciation***

Depreciation of an asset begins when it is available for use such as when it is in the location and condition necessary for it to be capable of operating in the manner intended by management.

For simplicity and to avoid proportionate computation, the depreciation is for one month if the PPE is available for use on or before the 15th of the month. However, if the PPE is available for use after the 15th of the month, depreciation starts on the succeeding month.

### ***Depreciation Method***

The Straight-Line Method of depreciation is adopted unless another method is more appropriate for agency operation.

### ***Estimated Useful Life***

Depreciation is charged at rates calculated to allocate the cost or valuation of the asset less any estimated residual value over its remaining useful life:

Land Improvements	-	Over the useful life of the asset to which the improvement was made or the useful life of the improvement if significantly shorter
Infrastructure Assets	-	20 to 50 years or over the useful life of the asset to which the improvement was made

Building and Other Structures	-	30 to 50 years
Machinery and Equipment - Office Equipment/Other Machinery and Equipment	-	5 to 10 years (depending on the economic use)
Machinery and Equipment - Information and Communication Equipment	-	5 years
Transportation Equipment - Motor Vehicle	-	7 years
Furniture and Fixtures	-	2 to 10 years (depending on the economic use)
Books	-	5 to 10 years
Other Property, Plant and Equipment	-	2 to 10 years

STII uses a residual value equivalent to at least five percent (5%) of the cost of the PPE.

### ***Impairment***

All unserviceable property reported in the Inspection Report of Unserviceable Property (IIRUP) is dropped from the books by debiting Impairment Loss - Property, Plant and Equipment (cost of PPE less Accumulated Depreciation).

### ***Derecognition***

STII derecognizes items of property, plant and equipment and/or any significant part of an asset upon disposal or when no future economic benefits or service potential is expected from its continuing use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the surplus or deficit when the asset is derecognized.

### 3.6 Intangible Assets

#### ***Recognition and Measurement***

Intangible assets are recognized when the items are identifiable non-monetary assets without physical substance; it is probable that the expected future economic benefits or service potential that are attributable to the assets will flow to the entity; and the cost or fair value of the assets can be measured reliably.

Intangible assets acquired separately are initially recognized at cost.

If payment for an intangible asset is deferred beyond normal credit terms, its cost is the cash price equivalent. The difference between this amount and the total payments is recognized as interest expense over the period of credit unless it is capitalized in accordance with the capitalization treatment permitted in PPSAS 5, Borrowing Costs.

#### ***Subsequent Measurement***

The useful life of the intangible assets is assessed as either finite or indefinite.

An intangible asset with a finite life is amortized over its useful life.

The Straight-Line Method is adopted in the amortization of the expected pattern of consumption of the expected future economic benefits or service potential.

An intangible asset with indefinite useful lives was not be amortized.

#### ***Changes in Accounting Policies and Estimates***

STII recognizes the effects of changes in accounting policy retrospectively. The effects of changes in accounting policy were applied prospectively if retrospective application is impractical.

STII recognizes the effects of changes in accounting estimates prospectively by including in surplus or deficit.

STII correct material prior period errors retrospectively in the first set of financial statements authorized for issue after their discovery by:

- Restating the comparative amounts for prior period(s) presented in which the error occurred; or
- If the error occurred before the earliest prior period presented, restating the opening balances of assets, liabilities and net assets/equity for the earliest prior period presented.

### 3.7 Foreign Currency Transactions

Transactions in foreign currencies were initially recognized by applying the spot exchange rate between the function currency and the foreign currency at the transaction.

At each reporting date:

- Foreign currency monetary items were translated using the closing rate;
- Nonmonetary items that were measured in terms of historical cost in a foreign currency were translated using the exchange rate at the date of the transaction; and
- Nonmonetary items that were measured at fair value in a foreign currency were translated using the exchange rates at the date when the fair value was determined.

Exchange differences arising (a) on the settlement of monetary items, or (b) on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements, were recognized in surplus or deficit in the period in which they arise, except as those arising on a monetary item that forms part of a reporting entity's net investment in a foreign operation.

### 3.8 Revenue from Non-Exchange Transactions

#### ***Recognition and Measurement of Assets from Non-Exchange Transactions***

An inflow of resources from a non-exchange transaction, other than services in-kind, that meets the definition of an asset were recognized as an asset if the following criteria were met:

- It is probable that the future economic benefits or service potential associated with the asset will flow to the entity; and
- The fair value of the asset can be measured reliably.

An asset acquired through a non-exchange transaction is initially measured at its fair value as at the date of acquisition.

#### ***Recognition Revenue from Non-Exchange Transactions***

An inflow of resources from a non-exchange transaction recognized as an asset is recognized as revenue, except to the extent that a liability is also recognized in respect of the same inflow.

As STII satisfies a present obligation recognized as a liability in respect of an inflow of resources from a non-exchange transaction recognized as an asset, it reduces

the carrying amount of the liability recognized and recognizes an amount of revenue equal to that reduction.

### ***Measurement of Revenue from Non-Exchange Transactions***

Revenue from non-exchange transactions is measured at the amount of the increase in net assets recognized by the entity, unless a corresponding liability is recognized.

### ***Measurement of Liabilities on Initial Recognition from Non-Exchange Transactions***

The amount recognized as a liability in a non-exchange transaction is the best estimate of the amount required to settle the present obligation at the reporting date.

### ***Taxes***

Taxes and the related fines and penalties were recognized when collected or when these were measurable and legally collectible. The related refunds, including those that were measurable and legally collectible, were deducted from the recognized tax revenue.

### ***Fees and Fines Not Related to Taxes***

STII recognizes revenues from fees and fines, except those related to taxes, when earned and the asset recognition criteria were met. Deferred income is recognized instead of revenue if there is a related condition attached that would give rise to a liability to repay the amount.

Other non-exchange revenues were recognized when it is probable that the future economic benefits or service potential associated with the asset will flow to the entity and the fair value of the asset can be measured reliably.

### ***Gifts and Donations***

STII recognizes assets and revenue from gifts and donations when it is probable that the future economic benefits or service potential will flow to the entity and the fair value of the assets can be measured reliably.

Goods in-kind were recognized as assets when the goods were received, or there is a binding arrangement to receive the goods. If goods in-kind were received without conditions attached, revenue is recognized immediately. If conditions were attached, a liability is recognized, which is reduced and revenue recognized as the conditions were satisfied.

On initial recognition, gifts and donations including goods in-kind were measured at their fair value as at the date of acquisition, which were ascertained by reference to an active market, or by appraisal. An appraisal of the value of an asset is normally undertaken by a member of the valuation profession who holds a recognized and

relevant professional qualification. For many assets, the fair value was ascertained by reference to quoted prices in an active and liquid market.

### ***Transfers***

STII recognizes an asset in respect of transfers when the transferred resources meet the definition of an asset and satisfy the criteria for recognition as an asset, except those arising from services in-kind.

### ***Services in-Kind***

Services in-kind were not recognized as asset and revenue considering the complexity of the determination of and recognition of asset and revenue and the eventual recognition of expenses.

### ***Transfers from Other Government Entities***

Revenues from non-exchange transactions with other government entities and the related assets were measured at fair value and recognized on obtaining control of the asset (cash, goods, services and property) if the transfer is free from conditions and it is probable that the economic benefits or service potential related to the asset will flow to STII and can be measured reliably.

## **3.9 Revenue from Exchange transactions**

### ***Measurement of Revenue***

Revenue was measured at the fair value of the consideration received or receivable.

### ***Rendering of Services***

STII recognizes revenue from rendering of services by reference to the stage of completion when the outcome of the transaction can be estimated reliably. The stage of completion is measured by reference to labor hours incurred to date as a percentage of total estimated labor hours.

Where the contract outcome cannot be measured reliably, revenue is recognized only to the extent that the expenses incurred were recoverable.

### ***Sale of Goods***

Revenue from the sale of goods is recognized when the significant risks and rewards of ownership have been transferred to the buyer, usually on delivery of the goods and when the amount of revenue can be measured reliably and it is probable that the economic benefits or service potential associated with the transaction will flow to STII.

### ***Interest income***

Interest income is accrued using the effective yield method. The effective yield discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount. The method applies this yield to the principal outstanding to determine interest income each period.

### ***Rental income***

Rental income, arising from operating leases on investment properties, is accounted for on a straight-line basis over the lease terms and included in revenue.

## **3.10 Budget Information**

The annual budget is prepared on a cash basis and is published in the government website.

A separate Statement of Comparison of Budget and Actual Amounts (SCBAA) was prepared since the budget and the financial statements were not prepared on comparable basis. The SCBAA was presented showing the original and final budget and the actual amounts on comparable basis to the budget. Explanatory comments are provided in the notes to the annual financial statements.

These budget figures were those approved by the governing body both at the beginning and during the year following a period of consultation with the public.

## **3.11 Related Parties**

The agency regards related party as a person or an entity with the ability to exert control individually or jointly, or to exercise significant influence over the agency, or vice versa.

Members of key management are regarded as related parties and comprise the members of the Executive Committee of the Agency such as the Director, and three (3) Division Chiefs.

## **3.12 Employee Benefits**

The employees of STII are members of the Government Service Insurance System (GSIS) which provides life and retirement insurance coverage.

STII recognizes the undiscounted amount of short term employee benefits, like salaries, wages, bonuses, allowance, etc., as expense unless capitalized, and as a liability after deducting the amount paid.

STII recognizes expenses for accumulating compensated absences when these were paid (commuted or paid as terminal leave benefits). Unused entitlements that have accumulated at the reporting date were not recognized as expense. Non-accumulating compensated absences, like special leave privileges, were not recognized.

### 3.13 Measurement Uncertainty

The preparation of the financial statements in conformity with PPSAS requires management to make estimates and assumptions that affect the reporting amounts of assets and liabilities, and disclosure of contingent assets and liabilities, at the date of the financial statements and the reported amounts of the revenues and expenses during the period. Items requiring the use of significant estimates include the useful life of capital assets, estimated employee benefits, rates for amortization and impairment of assets.

Estimates were based on the best information available at the time of preparation of the financial statements and were reviewed annually to reflect new information as it becomes available. Measurement uncertainty exists in these financial statements. Actual results could differ from these estimates.

### 3.14 Correction of Fundamental Errors

Fundamental errors of prior years are corrected by using the Accumulated Surplus/(Deficit) account. Errors affecting current year's operation are charged to current year's account.

## 4. Adjustments in Accumulated Surplus/Deficits

### 4.1 Prior period adjustment

Particulars	Amount
Issuance of Inventory Items based on RSMI	P (523,526.86)
Adjusting entry to recognized expired portion of Other Prepayments for Books	(4,685.00)
Set up receivables from supplier due to undelivered subscription.	234,990.00
<b>TOTAL</b>	<b>P (293,221.86)</b>

### 4.2 Other Adjustments during Current Year

Particulars	Amount
Disallowances of Longevity Pay for the year 2017-2020 per NFD 2021-01 dated June 30, 2021 and ND No. 2020-001-101 (17-20)	335,096.89
Correcting entries made to various Inventories/Semi-Expendable items	13,931.94
Adjusting Entry for cancellation of Accounts Payable	7,304.00
Excess of NCA	.20
Reclassification of Accounts from PPE to Semi expendable items	(68,832.00)
<b>TOTAL</b>	<b>P 287,501.03</b>

## 5. Cash and Cash Equivalents

Accounts	December 2021	December 2020
Cash on Hand	P 42,938.46	P 107,439.04
Cash in Bank-Local Currency, Current Account	246,977.58	205,327.33
Cash-Treasury/Agency Deposit	10,789,354.12	3,392,274.74
Cash, Modified Disbursement System (MDS)	0.00	0.00
<b>TOTAL</b>	<b>P 11,079,270.16</b>	<b>P 3,705,041.11</b>

**5.1 Cash on Hand** amounting to P42,938.46 composed of **Petty Cash Fund** which are granted to STII Regular Disbursing Officers/Petty Cash Custodians which are used to defray petty or miscellaneous and emergency expenses of the agency which cannot be conveniently paid through checks/LDDAP-ADA. These custodians are bonded and paid premiums at the Bureau of Treasury. Bonds are consistent with the amount granted and the coverage extends after 31 December 2021.

Petty Cash Fund Custodian	Risk No.	Effective Until	Balance as of December 31, 2021
PCFC 1	D3E-A21-0851R	23 May 2022	P 19,526.19
PCFC 2	D3E-A21-0964R	16 June 2022	1,087.97
PCFC 3	D3E-A21-0852R	23 May 2022	6,826.40
PCFC 4	D3-A21-0195R	04 February 2022	3,791.29
PCFC 5	D3-A21-0196R	02 February 2022	11,706.61
<b>TOTAL</b>			<b>P 42,938.46</b>

**5.2 Cash in Bank – Local Currency, Current account** is composed of collections from sale of Official Publications of STII. All collections were deposited to the Authorized Government Depository Bank. It also includes all deposits and withdrawals of STII's salaries and allowances through STII ATM Payroll account and taxes withheld for the month of December 2021 under Trust fund for remittance and payment on January 2022. Details as follows:

Account No.	Remarks	Amount
1822-1039-59	PJS Income Account	P 61,461.72

1822-1029-87	STII-ATM Payroll Account	185,515.86
<b>TOTAL</b>		<b>P 246,977.58</b>

**5.3 Cash - Treasury/Agency Cash account** is composed of *Cash-Treasury/Agency Deposit, Trust Account* which represents the unutilized NCA of various Grants-In-Aid (GIA) projects and deposits of collections from other NGAs as funding requirement of a specific GIA Project with the following details:

Carrying Amount, December 31	<b>0.00</b>	<b>209,856.73</b>

Accounts	December 2021	December 2020
<b>Semi-Expendable Books</b>		
Carrying Amount, January 1	0.00	117,515.86
Additions/Acquisitions during the year	118,240.00	449,721.55
Expensed during the year except for write down	(118,240.00)	(567,237.41)
Carrying Amount, December 31	<b>0.00</b>	<b>0.00</b>
<b>Total</b>	<b>P 144,442.00</b>	<b>P 429,227.09</b>

**7.1 Office Supplies and Other Supplies and Materials Inventories** are inventories held for consumption and will be expensed upon issuance of Requisition and Issue Slip (RIS) and submission of related Requisition of Supplies and Materials Issued (RSMI) Report from the Property Section.

**7.2 Semi-Expendable Office Equipment, ICT Equipment, Furniture and Fixtures and Books Accounts** are composed of Office Equipment, ICT Equipment, Furniture and Fixtures and Books below the capitalization threshold of P15,000.00. These assets are accounted for as semi-expendable properties and shall be recognized as expenses upon issuance of Inventory Custodian Slip to the end-user (Section 10, Chapter 8, GAM for NGAs).

Starting 2017, PPE purchased from previous years' that falls below the capitalization threshold of P15,000.00 were reclassified in its proper semi-expendable inventory account.

Semi expendable items recorded in previous years with issued Requisition and Issue Slip and Inventory Custodian Slip this year are charged to Accumulated Surplus/ Deficit for the period.

*Various library information materials, furniture and fixtures, and unserviceable equipment owned by the Technology Resource Center (TRC) were physically transferred to STII for the purpose of inclusion in the STII library collection in 2017. This endeavor was not able to push through pending completion of final and signed documentation of the said transfer and lack details such as fair value of the items. It was counted and being safekeep by STII pending resolution of the issue and the plans of TRC Transition Committee.*

## **8 Property, Plant and Equipment**

**8.1** The Property, Plant and Equipment consists of PPEs under Regular Agency Fund and Trust Fund. Purchased PPE for FY 2021 was reported as additions. Adjustments in PPE/Accumulated Depreciation pertain to depreciation of fully depreciated PPE. PPE purchased under Grants-in-Aid projects are also recorded as PPE in the Agency books per GAM.

PPE purchased under Grants-In-Aids are derecognized in STII books, upon liquidation of the project. Properties will be recognized as PPE upon transfer or donation from source agency (Annex M, GAM Vol. I, item no. 30).

Detailed breakdown of PPE as of 31 December 2021 is as follows:

Particulars	Building	Office Equipment	ICT Equipment	Communication Equipment	Printing Equipment	Technical and Scientific Equipment
<b>Carrying Amount, January 1, 2021</b>	<b>26,210,406.12</b>	<b>2,457,946.48</b>	<b>11,003,580.93</b>	<b>862,560.36</b>	<b>8,500.00</b>	<b>442,448.19</b>
